

Private consultant psychiatrist opportunities in Western Australia

Private consultant psychiatrist positions now available across 2 private hospitals in the Healthe Care portfolio – With 800 mental health beds across 15 hospitals, Healthe Care is one of Australia's largest private mental health providers.

We welcome expressions of interest from suitably qualified psychiatrists to join our dynamic teams across the following hospitals:

- Abbotsford Private Hospital

30-bed private mental health facility and Western Australia's only dedicated private inpatient hospital for the treatment of dual diagnosis (addictions and mental health). Scheduled for completion in June 2022, the upcoming hospital redevelopment will see bed total increase to 77 beds.

- Marian Centre

69-bed private acute mental health facility providing expert care in the management and treatment of acute mental health disorders.

As part of the Healthe Care Group, Abbotsford Private and the Marian Centre are committed to building supportive working environments for its Psychiatrists.

Onsite consulting rooms are available allowing efficiencies between outpatient consultations and inpatient reviews.

Abbotsford Private and the Marian Centre offer a combination of the very best treatment options, the highest level of patient care, integrated inpatient programs and peer support and supervision with colleague psychiatrists as well as professional development opportunities.

Patients are admitted both voluntarily under the care of a psychiatrist, supported by a team of highly trained nurses, psychologists and other allied health professionals and diversional therapists.

Over 800 private mental health beds nationally

We employ 7,000 people and operate 34 hospitals

Specialty mental health offerings include a broad range of inpatient, day patient and outpatient treatment options to support ongoing recovery to patients suffering from a range of mental health disorders.

Hospitals across the portfolio also specialise in the delivery of group programs, including DVA approved Trauma Recovery Program (PTSD) and DBT programs.

What are the advantages of working in private practice?

- Financial returns
- Autonomy
- Lifestyle
- Control over your own practice
- Ability to choose your patient mix and treatment
- Continuity of care for your patients
- Flexible work hours
- Peer support
- Choice and access to additional treatment modalities

What are the benefits of co-locating with a private hospital?

- Broad peer support from both within the hospital and the greater hospital-wide group network.
- Guaranteed referral base, new patients, start up support and full private practice set up
- Ease of access to inpatients for review
- Access to a broad range of service provision

healthcare™

- Marketing and promotion of your private practice to the general public, general practitioners and other specialists as part of our local and national marketing

Co-location with a private hospital allows for low operating costs with respect to a private practice and the added gain of being able to benefit from the large number of direct hospital referrals whilst also having access to the extensive network of external referrers that are already engaged with the hospital. Marketing and business development will work with you to arrange GP liaison meetings, presentations and the development of collateral, to raise your profile and increase your referral base to grow your business.

Additional treatment modalities in the form of evidence-based day and evening programs are offered in Health Care facilities, allowing your patients to access further support and education.

What does Health Care provide for me in private practice and inpatient work?

You are provided with a fully furnished consultancy suite. Full time Psychiatrists have a dedicated suite.

Within the suite you will have medical practice software and full set up needed to operate a consultancy suite.

We provide reception and administration support including patient file management, patient scheduling along with appointments and reminders, medical typing and all your patient billing would be attended to by the private practice office administration.

The applications we currently use are:

- Best Practice for billing and patient scheduling. This allows funds to go directly into Psychiatrists' bank accounts
- WebPas for patient management system
- Outlook for internal communication and to GPs directly
- Medical Director

What are the marketing and promotion advantages?

What this means is extensive marketing and directory listing both locally and nationally through our websites, GP liaison and collateral we develop for our sites.

Our GP liaison activity occurs frequently, with scheduled GP practice sessions delivered in practices by our hospital staff.

We also hold a range of CPD events delivered by our Psychiatrists to GPs, which all of our Psychiatrists are able to participate in. This enables intimate introduction to GPs and the ability to establish direct referral pathways into your private practice.

Direct inquiries for Psychiatrists' services come to the hospital. These can be direct referrals or patient inquiries. Any Psychiatrist wanting to build a private practice with us is introduced to our broad network of key referrers and also given opportunity to accept new patients or consultation in a private setting, when we receive the inquiries and referrals.

New Psychiatrists starting private practice and/or inpatient work can expect an accelerated ramp up of their business through connection with our hospital.

Most of our Psychiatrists see inpatients in scheduled appointment times during the day for about 50% of their time, depending on their outpatient private practice load. This option and/or after hours inpatient reviews can be undertaken as consultation space is available after hours at the hospital.

We have a dedicated marketing team who undertake introduction initiatives, marketing and communication as a way of updating GPs and healthcare professionals around our specialist and key services.

Essential criteria:

- Current AHPRA registration
- Fellowship of Royal Australian and New Zealand College of Psychiatrists (RANZCP)
- Commitment to own professional development needs in accordance with college requirements
